

A woman with long blonde hair, wearing sunglasses and a black bikini, is walking on a sandy beach. She is carrying a large, round inflatable ring with a vibrant, abstract pattern of yellow, blue, and white, accented with leopard print. The background shows the ocean with gentle waves and a clear blue sky.

1.8M SUN UMBRELLA & DECK CHAIR IN BERMUDA.

Everything we produce at Vienna Woods, has our personality stitched into the character of our product. We always ask ourselves the same question

What do we believe?

We are motivated by a shared vision for inspirational design that can help people relax in style and comfort. We use our experience to create fashion-led products, without having to compromise on quality. Everything we produce at Vienna Woods has our personality stitched into the character of our products. Each product has been carefully chosen to complement one another, and offers our customers an experience, which is driven by our passion.

We are a brand that specialises in product for independent and boutique stores. With the backing of SlumberTrek, an Australian market leader in innovative lifestyle products since 1995, we're confident that we can deliver premium products of exceptional value.

The experience and knowledge we have built as a supplier to major global retailers is evident in our relationship with you. We are committed to becoming your trusted partner and providing the range and support your business needs to meet the expectations of your customers.

With a robust supply chain and a deep understanding of the casual lifestyle market, we can be depended upon to deliver and back up everything we do with excellent aftermarket service and care.

Each product has been carefully chosen to compliment one another, and offer our customers an experience, which has been driven by passion, influenced by experience and delivered by a team who have been there from the start.

We took our products and looked at where we could stand-out from the crowd. It was not just the development of the unique prints, which were hand drawn and cultivated over our love of fashion, but how could we make the best products on the market. Each material, fabric, composite and finishing has been reviewed, tested and we are happy to state that we think this is the most comprehensive product on the market, and we are pleased to offer this to our customers.

Thank you X, Gem

- co-creator of Vienna Woods
